

MARINE SEW FOAM

Marine Sew Foam was designed to add a luxurious feel to your vinyl upholstery projects while also creating a protective barrier that helps prevent microbial pink staining. Avoid costly repairs and spend more time enjoying the water with Miami's **Marine Sew Foam** – the essential addition to your marine upholstery projects.

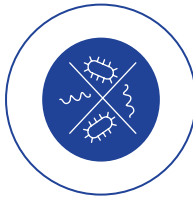

Product Features

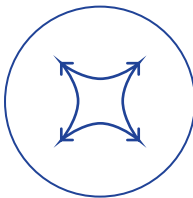

Anti-Pinking

Our Marine Sew Foam helps protect your investment by resisting harmful microbial pinking that can wreak havoc on your vinyl-covered seats.

Anti-Microbial

In addition to resisting the microorganisms that cause pink staining, our Marine Sew Foam helps protect against many other undesirable microbes as well.

Pattern-Perfect Firmness

The perfect firmness for creating pleats, diamonds, or other on-trend shapes in your marine vinyl seating project.

Primary Markets Served

Marine Seating
